# EPA Approved Hospital Grade Antimicrobial Solution

 **dapnationaldisinfect1** ...

 **dapnationaldisinfect1** Choose the RIGHT Service to provide the most effective protection against COVID-19!

We utilize EPA Approved Hospital Grade Antimicrobial Solution...but without eMist electrostatic application, the entire surface is not covered...

Electrostatic application of chemicals dramatically increases droplet attraction and attachment to surfaces. In fact, research indicates that electrostatic application is 8 times more effective than using an uncharged sprayer.

Visit [DAPNational.com](http://DAPNational.com) or call (800) 234-9804 to schedule!
